Chairman Wilcox Says he Will Have Announcement to Show That Hughes is Elected

"Hughes Will Win"

New York, Nov. 9 .- Republican headquarters expect positively and finally to announce the election of Governor Hughes for the presidency in an hour, Chairman Wilcox formally stated just before two o'clock this afternoon.

"This announcement may come any time," said Wilcox. "However, it is entirely probaable that it may be delayed until around midnight. The situation looks more and more favorable to Mr. Hughes. I feel certain that both California and Minnesota will be added to the Hughes column."

New York, Nov. 9 .- Republicans claim California now by 500. A telegram received from State Chair man Rowell at republican headquarters at 3:45 made this claim.

> BY PERRY ARNOLD (U. P. Staff Correspondent.)

New York, Nov. 9 .- The tide for Wilson set in so strongly in California and Minnesota this afternoon that his election appeared probable at 3:45 this afternoon. Returns from these two states would indicate the president's re-election

Two Philadelphia newspapers which strongly supported Hughes in the campaign, this afternoon admitted their candidate's defeat.

The belief that the Wilson drift would result in his choice based on these developments:

Hughes must carry both Minne sota and California to win. Wilson's lead in California is steadily maintained. Hughes' lead in Minn esota is being cut down by further returns.

ADD TO WILSON'S LEAD

St. Paul, Minn., Nov. 9 .- Returns from 49 precincts of Beltrami county leaving 37 still missing give Wilson 1,223, Hughes 911.

This is one of the far north counties that Wilson has been depending Hughes ,a lead of 1,329 for Wilson on. Clay county complete gives Hughes 1,549, Wilson 1,721. The last five precincts added ten to Wilson. Thirteen of the fourteen missing precincts of Polk county added 86 to Wilson's lead.

Rub Musterole on Forehead and Temples

A headache remedy without the dangers of "headache medicine." Relieves headache and that miserable feeling from colds or congestion. And it acts at once! Musterole is a clean, white ointment, made with oil of mustard. Better than a mustard plaster and does not blister. Used only externally, and in no way can affect stomach and heart, as some internal medicines do.

Excellent for sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, all pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds of the chest (it often prevents pneumonia).

What You Owe Community.

Friend, stop and think what you owe to your community. But first stop and think what your community has done for you.

How many men in your community have accumulated what they have outside of that community Very few, you will admit.

Now, how was it possible for you to accumulate property? Was purely by your own exertion, or did not business conditions contribute largely to the result? If you are a farmer, and were your farm a hundred miles from civilation, what would it profit you? How much wealth could you amass?

Now, friend, your holdings are not solely the result of your own energy. The entier population of your community has contributed to your upbuilding.

What though you are the most capable lawyer or doctor, if you are located in a sparsely settled country where there is little demand for your services, what does your capability profit you?

What of the expert builder it there are no homes to build What of the engineers, if the nearest approach to a locomotive were the old ox-wagon of our grandfathers?

So you see that wealth is very largely a matter of environment. Without a populous community all men are at a disadvantage in its accumulation, and as the community grows in population the oportunities for accumulating wealth increase.

Now if you owe this debt and we do not think you will dispute it--isn't it up to you to discharge it when called upon to do so?

How many times has your community called upon you in vain when plans for its betterment were being made. A road was to be built for which funds were not available. Did you contribute? A school house was to be repaired and the grounds beautified. How much did you help? Your church was old and out of date, and the membership wanted to rebuild. Did you chip in ?

In short, you are paying your debt to the world and to the community in the only logical way-assisting to the extent of your ability to make it a better community for your children and your children's children to live in?

Now you will admit that you owe o your parents a debt you can never repay-to them. The only way you can possibly pay is to pass it on to another generation. That is nature's eternal plan.

Just so you can pass on to the community of the future what the community of the past has done

Will you pay the debt?

It makes not a bit of difference who you are or what you are, this town has done more for you than you have done for it. You may be rich, or you may be poor, or just in moderate circumstances; but in either case your home town has done much for you that you have never recognized or repaid. This statement is worthy of serious consideration by every citizen who be lieves in giving as he receives. If von give it the consideration it deserves you will get busy right away and do your full share towards making this a bigger and better and more prosperous town in every way.

Now that the smoke of the political battles is drifting away, perhaps we can get down to business and for our favorite candidates and giv- wife. ne them the benefit of our influence and our votes, all of which they will D. and unstrung; some days really in- 27. capacitated by illness.

If we all would practice insidebathing, what a gratifying change would take place. Instead of thousands of half-sick, anaemic-looking souls with pasty, muddy complexions we should see crowds of happy, healthy, rosy-cheeked people everywhere. The reason is that the human system does not rid itself each day of all the waste which it accumulates under our present mode of living. For every ounce of food and drink taken into the system nearly an ounce of waste material must be carried out, else it ferments and forms ptomaine-like poisons which are absorbed into the blood.

Just as necessary as it is to clean the ashes from the furnace each day, before the fire will burn bright and hot, so we must each morning clear * the inside organs of the previous day's accumulation of indigestible waste and body toxins. Men and women, whether sick or well, are advised to drink each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it, as a harmless means of washing out of the stomach, liver, kidneys and bowels the indigestible material, waste, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Millions of people who had their turn at constipation, bilious attacks, acid stomach, nervous days and! sleepless nights have become real cranks about the morning insidebath. A quarter pound of limestone phosphate will not cost much at the board the concession of New Hampdrug store, but is sufficient to demon- shire to Wilson by 171 votes. strate to anyone, its cleansing, sweetening and freshening effect upon the system.

COUNTY TO CELEBRATE OVER WATSON'S ELECTION

Continued from Page 1. bash, Warrick, Wayne, White. Total congratulatory telegram and ex pressing his gratitude.

> After answering his mail this morning, Mr. Watson went to Indianapolis shortly before noon. He was literally covered up with messages from many friends both in and out of the state.

Mr. Watson returned home last night from Winchester where he attended the funeral of his brother-inlaw yesterday afternoon. He said felt very hopeful about the presidential situation because of the trend toward Hughes in Minnesota. Mr. Watson said this morning, commenting on the election, that the oig surprise to him was the defeat of Senator Sutherland of Utah and Senator Lippitt of Rhode Island, both strong republicans who were thought to stand well in their states. Although both republicans senators were elected in Indiana, there will be a democratic majority in the sen-

According to dispatches from Washington, Mr. Watson's term as senator will begin on December 4 of this year when congress goes into session. One senator says that if there should be an extra session before that time, Senator Taggart would serve, but another declares that Mr. Watson becomes senator whenever congress convenes, whether it be an extra session or regular.

San Francisco, Cal., Nov. 9.-United Press tabulations today of 5,472 precincts in California including corrections of early count, from some counties gave Wilson a lead of 4,396. The total was: Wilson 440,261; Hughes 435,865. Wilson at one time late yesterday afternoon had a plurality of over 9,000 thus showing that Hughes has gained despite apparent losses.

An error in the report of one county as having cast near 15,000 votes is corrected in this total.

This leaves 400 precincts to be heard from.

The 400 missing precincts are nearly all in southern California where Hughes is strong and there is a strong possibility that when the returns come in the Wilson lead! will be greatly reduced or offset.

Tanlac, the Great New Medicine Sweeps Over Nation: Merit Wins And Multitudes Give It Praise

'Made Me Youuger"---"Put Me Back on the Payroll"---"Gave Me New Life"--- In the Thousands of Endorsements Given the Master Medicine.

More than seven million five hundred thousand bottles of Tanlac have been sold in the United States in the two years since the first bottle was sold.

The tremendous and unprecedented success of Talac could not have been achieved without true merit. The 8,000 druggists who are giving Tanlac their renewed endorsements know that they have behind them the unqualified endorsement of Tanlac by millions of satisfied customers.

No other medicine has ever had the same success that Tanlac has won as a tonic, appetizer, invigorant and revitalizer. Its fame was instantaneous and it spread through the country until today it is known everywhere as The Master Medicine.

True Worth Explains Success

Tanlac's success is easily explained—true worth. The tens of thousands of men and women who have enfrom friends of Mr. Watson's out- dorsed it praise it because they are grateful for the relief Tanlac has given them.

> To suffer from sleeplessness, indigestion, nervousness, rheumatism, belching and bloating from gas; dizziness and biliousness; kidney and liver troubles, pains in the stomach, the back and the head for years, and then to get relief through a tonic that is pleasant to take, gentle and gradual in its results, renewing the appetite, aiding assimilation, and restoring health, vigor, ambition and strength, is enough to make people grateful.

Tens of thousands of people have said that Tanlac is The Master Medicine.

Endorsements Are Remarkable

Some of the endorsements of Tanlac are remarkable. They show that taking Tanlac was a profitable investment for sick, weak, nervous, run-down men and women-profitable in more than one way. Some of the praise of Tanlac is in phrases that are written over and over.

"I feel like a new man"—"Tanlac has put me back on the payroll"—"I never lay off from my work since I took Tanlac"—"I do twice as much work as I used to"—"Tanlac has made me feel twenty years younger"—"I wake up in the morning feeling fine now."

Many women have written, "I have my natural color back since I took Tanlac"—"I feel like a girl again" My neighbors ask me what I have done to look so young and my answer is Tanlac"—I feel like a different woman; my housework is a pleasure since I took Tanlac"—

Those are some of the expressions which tens of thousands of men and women have used, in statements praising Tanlac.

Tanlac Meets a Need

Prepared from a secret formula, purely vegetable and absolutely free from mineral taint, Tanlac has met the need of a great reconstructive tonic to feed while it heals sick, sore stomachs; to promote digestion, aid assimilation, induce healthy and normal function of the digestive apparatus, and to build up health and strength in a natural way.

Throughout the vast world Nature has placed remedies for the healing of the nations. In Tanlac the best of them are merged for a sensible, reliable remedy. In Tanlac nature offers the great natural remedy for the everyday ills from which millions of men and women suffer.

The ingredients or medicinal elements which make Tanlac come from far separated sections of the globe. It is as though Nature, planting her gardens in every zone of the vast world, permitted man to select the best for compounding into a great remedy. Man has spared no expense or labor to get these best ingredients.

Now a Household Remedy

Roots, herbs and barks best suited to a great tonic are used in the making of Tanlac. They are selected scientifically and blended with care. In order to insure a supply of them for Tanlac, The Cooper Medicine Company bought large amounts of certain ingredients. Ten tons of one ingredient were bought on one order.

Tanlac's success, starting so quickly, is lasting. It has become a household remedy and is in two million homes because it is the great medicine which Nature offers from her best products.

Millions of people know this and Tanlac therefore is praised everywhere as The National Tonic—the upbuilder of health and strength through the stomach, blood and nerves.

After All Reforms, Men are as Before-Egotistical, Greedy, Cowardly, Cruel and Stupid.

(By United Press.)

Milwaukee, Wis., Nov. 9 .- That nen have made a little, if any moral progress within the last 10,000. years, was stated by D. J. N. Hurty state health commissioner of Indiana, in speaking at the annual convention of the Wisconsin Federation of Women's clubs here today.

"After all reforms, men are as before-egotistical, greedy, cowardly, cruel, stupid and furious in turn and we always find about the same number of new-born babes, married people, fools and hanged men and thus is manifested the order of society," said Dr. Hurty.

"The order is stable under un guided procreation and nothing but directed and controlled breeding can possibly change it. Prostitution erime, insanity, poverty and delinquency exist as never before These evils must be bred out of the race. Let us abolish the feeble minded. The criminal, insane, pauper and delinquent classes largely come out abolish the foundation.

Delegates at Annual Meeting of Indiana Library Trustees Consider This Topic.

METHODS ARE DISCUSSED

Indianapolis, Ind., Nov. 9.-Delegates to the annual meeting of the Indiana library trustees convention today took up the question of encouragement of good reading.

Various methods of displaying and advertising the best books were discussed. It was agreed that the question of getting the public to read good books was a matter of education.

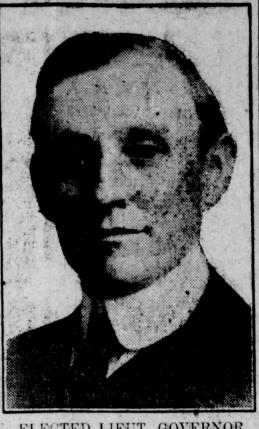

Mrs. Arthur E. Bostwick, librarian of the St. Louis public library. gave an address on the subject and told of schemes which had been worked successfully in the St. Louis library to encourage reading better

Various methods by which business men should utilize the library were discussed by Harry Tipper of New York. He urged that the business men co-operate with library officials and stated that business men should make more use of the facilities offened by the librarians.

Miss Mabel Tinkham, of Gary, presided at a conference of delegates from college and reference ibraries attending the meeting of the Indiana Library association. Newer methods of keeping tabulated references and the like were dis-

You can Bring Back Color and Lustre with Sage Tea and Sulphur.

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally, so evenly. Preparing this mixture, though, at home is mussy and troublesome. For 50 cents you can buy at any drug store the readyto-use preparation, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and, after another application or two, your hair becomes beautifully darkened, glossy and

Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur Compound and look years younger. This ready-to-use preparation is a delightful toilet requisite and not a medicine. It is not intended for the cure, mitigation or prevention of disease.

A Great Loss and a Greater Gain

This business has rounded out twenty-two months of existence by distributing to owners more than one hundred thousand cars.

Price concessions on this car are rarely asked, and never given with Dodge Brothers consent or to their knowledge. You can therefore figure accurately the amount invested by the public in Dodge Brothers cars, by multiplying the output by the retail selling price.

One hundred thousand cars at \$785 per car means a sales-total in less than two years' time of \$78,500,000or, with freight-cost added, considerably more than

There have been no bursts of speed in the up-building of this great business.

At no time has there been even an attempt at stimulation of sales or of production.

Never for a single day has production been speeded up for the sake of attaining a total.

On the contrary, it has been held down every day within the limits of close, careful, conscientious manufac-

Both production and sales have been stable, steady and spontaneous-scrupulcus are in the one, producing huge volume in the other.

At this moment, as at every other period, although producing a large volume every day, Dodge Brothers are

"losing business" by their policy of keeping production within the bounds of continuous betterment.

In that sense they have doubtless suffered a great loss in the past and will endure a great loss in the future.

But over against this great loss is an infinitely greater

The people of the United States have implicit faith in the integrity of Dodge Brothers manufacturing methods.

One hundred thousand owners-or rather, one hundred thousand families—are practically of one mind concerning the car and the men who make it.

This business and its product are blessed with a friendship probably without parallel in the history of American manufacturing.

Fresh from the factory, or sold at second-hand, from one end of the nation to the other, the car has special value and a special reputation, because of the name it

Because of the name it bears, you may be sure that the principle behind the car will never be changed a hair's breadth.

Dodge Brothers have only one idea in the upbuilding of their business.

That idea is to build so soundly and so well that the good will which they have won will grow and endure forever.

The gasoline consumption is unusually low. The tire mileage is unusually high.

You will remember the great Hot Blast Air Tight Florence that was demonstrated in the Centennial parade Friday, Oct. 13, by Mr. J. B. Howard, the inventor. Read what he has to say about it:

Mr. Howard, the inventor, says that with 4 or 5 tons of the poorest and cheapest grade of soft coal you can heat 4 or 5 rooms all winter with a No. 153 Florence, which will produce cleaner results than hard coal in a base burner. The result that you will get with 4 or 5 tons of the poorest soft coal in the Florence, will equal 6 or 7 tons of coal in any other make of stove or furnaces. CORN CROP IS

As a Whole Did Not Turn Out Well as Expected on Account of Weather Conditions

POORLY FILLED EARS RULE

Early Potato Crop Fairly Good but Late Potatoes are Almost a Failure, Report Says

The corn crop in Rush county is about all gathered, and according to reports, is running about the same as the average throughout Indiana, which is not as good as was first. anticipated. George C. Bryant, field agent in Indiana for the United States department of agriculture, says that although the crop is not as good as expected, the good can be cribbed and the poor used for en-

"In the north part of the state," the report continues, "frost damaged the crop very materially, while in the south part the greatest damage was from heat and storms. Complaint from all sections has been received of poorly filled and small, chaffy ears. Husking is progressing very rapidly and will be practically completed within the next two weeks if the weather continues favorable.

"The wheat crop is the smallest for many years and will not grade above No. 3 for the whole crop, notwithstanding that there were some sections that produced an excellent grade.

"The oats crop is considerably short of last year, and while it is of splendid color, the extreme heat at the filling period caused it to be very light weight per measured bushel.

"Tobacco is not grown very extensively in this State, but the counties that do produce it report a ! splendid crop this year, both weight and color being exceptionally good and the crop put away in the best of condition.

"The early potato crop was a fairly good one, but the late potatoes were almost a failure. Blight, bugs and frost being the agencies contributing to the disaster.

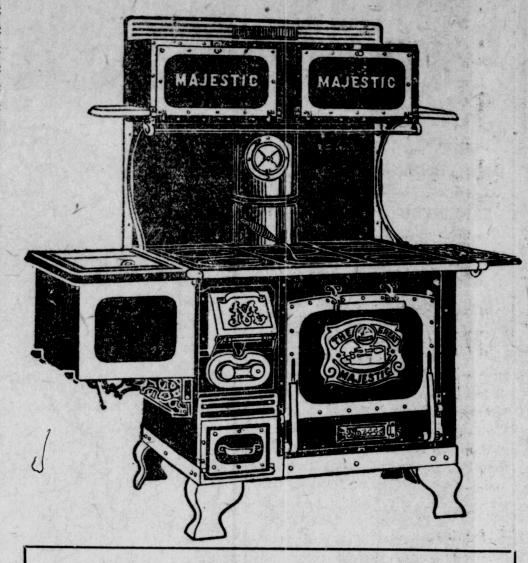

"Hay was about the only full crop produced this year, it being one of the largest and best ever raised in the State.

"The total production of apples, compared with a favorable year, is very low. Very few of the farm orchards had any at all, but the commercial orchards in nearly all cases report a good crop, and some of them the largest crop ever raised. The quality is unusually good except in a few sections. The late varieties are raised much more extensively than the early and nearly all of them are marketed, either at the orchard or through cold storage houses. The number of trees remains about the same as the census reported, although many large orchards have been set out since that time."

Red Head Sale Bills

If you are contemplating a Public kind that you see mostly arou county.

During this week we will have a special demonstrator from the Majestic Factory to explain how the Majestic is made and why it is absolutely the best range; why it lasts longer and cuts down repair expenses; why it bakes bread evenly, top, sides and bottom without turning; why it uses so little fuel and saves food waste. He will explain its labor saving construction and why it heats an abundance of water good and hot-a mighty convenient and useful thing to have a big supply of hot water always on hand isn't it.

To buy a range by mail is almost certain to end in disappointment and loss of money. It may be "exactly as represnted" yet not be what you thought it was nor what you wanted.

Here you can see every part of the Majestic-you can know what you are getting before you buy. Decide now that you will discontinue using that old, worn-out range. You will save money in fuel, repairs and cooking. Buy a Majestic-the range with 25 years' reputation. The demonstrator will answer any questions relating to stoves.

Chairman Wilcox Says he Will Have Announcement to Show That . Hughes is Elected

"Hughes Will Win"

New York, Nov. 9 .-- Republican headquarters expect positively and finally to announce the election of Governor Hughes for the presidency in an hour, Chairman Wilcox formally stated just before two o'clock this afternoon.

"This announcement may come any time," said Wilcox. "However, it is entirely probaable that it may be delayed until around midnight. The situation looks more and more favorable to Mr. Hughes. I feel certain that both California and Minnesota will be added to the Hughes column."

(U. P. Staff Correspondent.) New York, Nov. 9.—The fide for Wilson set in so strongly in California and Minnesota this afternoon that his election appeared probable at 3:45 this afternoon. Returns from these two states would indicate the president's re-election

Two Philadelphia newspapers which strongly supported Hughes in the campaign, this afternoon admitted their candidate's defeat.

The belief that the Wilson drift would result in his choice was based on these developments:

Hughes must carry both Minnesota and California to win. Wilson's lead in California is steadily maintained. Hughes' lead in Minnesota is being out down by further returns.

Two Horses, Mule, Cow, and Calf Die When Murphy's Barn Burns

Two horses, a mule, a cow, and a calf were burned to death when a large barn on Jesse Murphy's farm just east of Glenwood was destroyed by fire Tuesday night. The cause of the blaze will always remain a mystery, it is said. No estimate was placed on the loss today, because Mr. Murphy has no telephone and could not be reached. In addicans seem to be getting in shape if tion to the live stock killed, twentythe state goes against them. Fed five tons of hay were burned. What You Owe Community.

Friend, stop and think what you 直 owe to your community. But first stop and think what your community has done for you.

How many men in your community have accumulated what they have outside of that community 'ery few, you will admit.

Now, how was it possible for you to accumulate property? Was it purely by your own exertion, or did not business conditions — contribute largely to the result? If you are a farmer, and were your farm a hundred miles from civilation, what would it profit you? How much wealth could you amass?

Now, friend, your holdings are not solely the result of your own energy. The entier population of your community has contributed to your up-

What though you are the most eapable lawyer or doctor, if you are located in a sparsely settled country where there is little demand for your services, what does your capability profit you?

What of the expert builder if there are no homes to build What of the engineers, if the nearest approach to a locomotive were the old ox-wagon of our grandfathers?

So you see that wealth is very largely a matter of environment. Without a populous community all men are at a disadvantage in its accumulation, and as the community grows in population the opertunities for accumulating wealth increase.

Now if you owe this debt and we do not think you will dispute it--isn't it up to you to discharge it when called upon to do so?

How many times has your community called upon you in vain when plans for its betterment were being made. A road was to be built for which funds were not available. Did you contribute? A school house was to be repaired and the grounds beautified. How much did you help? Your church was old and out of date, and the membership wanted to rebuild. Did you chip in?

In short, you are paying your debt to the world and to the community in the only logical way-assisting to the extent of your ability to make it a better community for your children and your children's hildren to live in?

Now you will admit that you owe o your parents a debt you can ne er repay—to them. The only way you can possibly pay is to pass it on to another generation. That is nature's efernal plan.

Just'so you can pass on to the community of the future what the community of the past has done for you.

Will you pay the debt?

It makes not a hit of difference who you are or what you are, this town has done more for you than you have done for it. You may be rich, or you may be poor, or just in moderate circumstances; but in either case your home fown has done much for you that you have never recognized or repaid. This statement is worthy of serious consideration by every citizen who believes in giving as he receives. If you give it the consideration it deserves you will get busy right away 4, 1916, aged 55 years 7 months, and do your full share towards making this a bigger and better and more prosperous fown in every way.

Now that the smoke of the political battles is drifting away, perhaps we can get down to business and community. We have whooped it up for our favorite candidates and giv- wife. ne them the benefit of our influence and our votes, all of which they will D. I. Lambert, Rev. C. M. Yocum, promptly forget. If we are equally and Rev. John Aikin. energetic in whooping it up for our local community we may accomplish some definite and tangible reprosperity to us.

Kuthleene Jones, daughter of Alcan and Elizabeth Richmond, was born at Ovid, Michigan, March 11, 1861. She moved with her parents, to Rushville, Indiana, when twelve years of age, at which place she has since made her home. When 25 years of age, she was united in marriage to Charles Bush, and was left a widow, through his death, five years later. In April, 1896, she was united in marriage to John A. Jones, to whom she made a faithful and helpful companion. She united with the Presbyterian church at Rushville, Ind., when fourteen years of age, and died a member of this same church. She leaves, besides her husband, John A Jones, two sisters, Mrs. Daniel Kiplinger of this county, and Mrs. Bert M. Moses, of New York City.

She departed this life November and 23 days.

After answering his mail this morning, Mr. Watson went to Indianapolis shortly before noon. He was literally covered up with messages from many friends both in and out of the state.

Mr. Watson returned home last night from Winchester where he attended the funeral of his brother-inlaw yesterday afternoon. He said If we all would practice inside- five and Mr. Adair thirty of the upon arrival here last night that he felt very hopeful about the presidential situation because of the trend toward Hughes in Minnesota. He was even more hopeful this morning when lie analyzed the later beturns given in the morning newspapers.

Mr. Watson was swamped with telegrams and letters of congratulations. He kept one stenographer busy all day answering letters which as The Master Medicine. expressed his appreciation of the fine expressions of the hundreds of loyal Watson supporters all over the state. Some messages, too, were from friends of Mr. Watson's outside of the state.

No other medicine has ever had the same success that Tanlac has won as a tonic, appetizer, invigorant and revitalizer. Its fame was instantaneous and it spread through the country until today it is known everywhere

True Worth Explains Success

Tanlac's success is easily explained—true worth. The tens of thousands of men and women who have endorsed it praise it because they are grateful for the relief Taniac has given them.

To suffer from sleeplessness, indigestion, nervousness, rheumatism, belching and bloating from gas; dizziness and biliousness; kidney and liver troubles, pains in the stomach, the back and the head for years, and then to get relief through a tonic that is pleasant to take, gentle and gradual in its results, renewing the appetite, of Senator Sutherland of Utah and aiding assimilation, and restoring health, vigor, ambition and strength, is enough to make people grateful.

Tens of thousands of people have said that Tanlac is The Master Medicine.

Endorsements Are Remarkable

Some of the endorsements of Tanlac are remarkable. They show that taking Tanlac was a profitable investment for sick, weak, nervous, run-down men and women-profitable in more than one way. Some of the praise of Tanlac is in phrases that are written over and over.

"I feel like a new man"—"Tanlac has put me back on the payroll"—"I never lay off from my work since I took Tanlac"—"I do twice as much work as I used to"—"Tanlac has made me feel twenty years younger"—"I

Many women have written, "I have my natural color back since I took Tanlac"—"I feel like a girl again" -"My neighbors ask me what I have done to look so young and my answer is Tanlac"—I feel like a different woman; my housework is a pleasure since I took Tanlac"-

Those are some of the expressions which tens of thousands of men and women have used, in statements praising Tanlae.

Tanlac Meets a Need

Prepared from a secret formula, purely vegetable and absolutely free from mineral taint, Tanlac has met the need of a great reconstructive tonic to feed while it heals sick, sore stomachs; to promote digestion, aid be called Monday to investigate the assimilation, induce healthy and normal function of the digestive apparatus, and to build up health and strength

> Throughout the vast world Nature has placed remedies for the healing of the nations. In Tantac the best of them are merged for a sensible, reliable remedy. In Tanlac nature offers the great natural remedy for the everyday ills from which millions of men and women suffer.

> The ingredients or medicinal elements which make Tanlac come from far separated sections of the globe. It is as though Nature, planting her gardens in every zone of the vast world, permitted man to select the best for compounding into a great remedy. Man has spared no expense or labor to get these best ingredients.

Now a Household Remedy

Roots, herbs and barks best suited to a great tonic are used in the making of Tanlac. They are selected scientifically and blended with care. In order to insure a supply of them for Tanlac, The Cooper Medicine Company bought large amounts of certain ingredients. Ten tons of one ingredient were bought on one order-

Tanlac's success, starting so quickly, is lasting. It has become a household remedy and is in two million homes because it is the great medicine which Nature offers from her best products.

Millions of people know this and Tanlac therefore is praised everywhere as The National Tonic—the upthus showing that Hughes has gain- builder of health and strength through the stomach, blood and nerves.

Dr. J. N. Hurty Tells Wisconsin Federation of Women's Clubs it is Very Slow.

NONE IN 10,000 YEARS HE SAYS

After All Reforms, Men are as Before-Egotistical, Greedy, Cowardly, Cruel and Stupid.

(By United Press.) Milwanket, Wis., Nov. 9.-That nen have made a little, if any moral progress within the last 10,000. venrs, was stated by D. J. N. Hurty state health commissioner of Indiana, in speaking at the annual conention of the Wisconsin Federation of Women's clubs here today.

"After all reforms, men are as before-egotistical, greedy, cowardly, eruel, stupid and furious in turn and we always find about the same number of new-born babes, married people, fools and hanged men and thus is manifested the order of society," said Dr. Hurty.

"The order is stable under unmided procreation and nothing but directed and controlled breeding can possibly change it. Prostitution crime, insanity, poverty and delinquency exist as never before These evils must be bred out of the race. Let us abolish the feeble minded. The criminal, insant, pauper and of feeble mindedness, so we must abolish the foundation.

"If the race is to be bettered, we must not only stop the breeding of the unfit and stop building asylums for them but we must also, reverse our present efforts to keep men out of hell and instead, try to keep hell out of men.

Prudery, which stands in the way of suppressing veneral diseases, must also be climinated in dealing with these serious problems of the human race.

"The American nation is growing in material strength, however, and there are reasons to believe that before another decade passes, the strength, moral purity and intellectual integrity will be well on its way and will be pushed by the home school, church, society and state."

Delegates at Annual Meeting of Indiana Library Trustees Consider This Topic.

METHODS ARE DISCUSSED

Indianapolis, Ind., Nov. 9.-Delegates to the annual meeting of the Indiana library trustees convention today took up the question of encouragement of good reading.

Various methods of displaying and advertising the best books were discussed. It was agreed that the question of getting the public to read good books was a matter of education.

Hets-It" Hever Fails for Corns!

There's Nothing on Earth Like It For Corns and Calluses.

"Whenever you get corns and cal-nass, don't experiment — just use "GETS-IT" and nothing else. Eas-iest and simplest thing I know to use —just a few, drops on in a few sec-

that make toes raw, cotton rings that makeyour corns pop-eyed, knives and "diggers" that tear your heart out and leave the corn in. No wonder they make you limp and wince. Forget all these—use "GETS-IT" the simplest corn remedy in the world, easiest to use, never fails or sticks, painless. Your ton loosens, then you lift to off. You can wear smaller shoes.

Heat Your Home Better with Hot Air-Pay Less

See the Estate Hot Storm IN ACTION!

THE WONDERFUL new system of hot air heating that brings the comfort and convenience of a furnace-heated home within everyone's reach will be demonstrated and thoroughly explained by an expert from the Estate Stove Factory at-

Gunn Haydon's Saturday, November 11th

—the Stove with a "Little Furnace" in it

is not a stove, not a furnace, but a heating system that combines the best features of both. It sets in the room like a stove, its exterior looks like a stove, but there the similarity ends. For its interior is utterly different from any stove you have seen inside it is built like a hot air furnance.

As a Whole Did Not Turn Out as Well as Expected on Account of Weather Conditions

POORLY FILLED EARS RULE

Early Potato Crop Fairly Good but Late Potatoes are Almost-a Failure, Report Says

The eorn erop in Rush county is about all gathered, and according to reports, is running about the same as the average throughout Indiana, which is not as good as was first, anticipated, "George C. Bryant, field" agent in Indiana for the United States department of agriculture, says that although the crop is not as good as expected, the good can be cribbed and the poor used for en-

"In the north part of the state," the report continues, "frost damaged the crop very materially, while in the south part the greatest damage was from heat and storms. Complaint from all sections has been received of poorly filled and small, chaffy ears. Husking is progressing very rapidly and will be practically completed within the next two weeks if the weather continues favorable.

"The wheat crop is the smallest for many years and will not grade T nbove No. 3 for the whole crop, notwithstanding that there were some sections that produced an excellent grade.

"The oats crop is considerably short of last year, and while it is of splendid color, the extreme heat at the filling period caused it to be very light weight per measured bushel.

"Tobacco is not grown very extensively in this State, but the counties that do produce it report a splendid erop this year, both weight and color being exceptionally good and the crop put away in the best

"The early potato crop was a fairly good one, but the late potatoes were almost a failure. Blight, bugs and frost being the agencies contributing to the disaster.

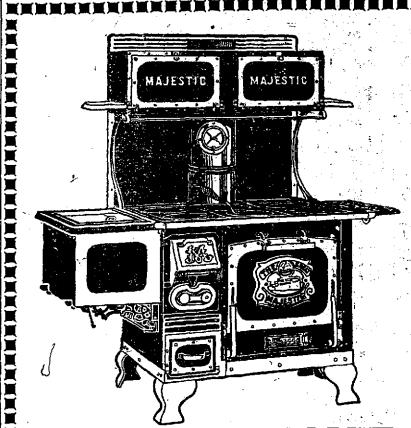

"Hay was about the only full erop produced this year, it being one of the largest and best ever raised

"The total production of apples, | compared with a favorable year, is very low. Very few of the farm orchards had any at all, but the commercial orchards in nearly all cases report a good crop, and some of them the largest crop ever raised. The quality is unusually good except in a few sections. The late varieties are raised much more exvarieties are raised much more extensively than the early and nearly all of them are marketed, either at the orehard or through cold storage houses. The number of trees remains about the same as the census reported, although many large orchards have been set out since that time."

Red Head Sale Bills

If you are contemplating a Public prices on Red Head Sale Bills, the

During this week we will have a special demonstrator from the Majestic Factory to explain how the Majestic is made and why it is absolutely the best range; why it lasts longer and cuts down repair expenses; why it bakes bread evenly, top, sides and bottom without turning; why it uses so little fuel and saves food waste. He will explain its labor saving construction and why it heats an abundance of water good and hot-a mighty convenient and useful thing to have a big supply of hot water always on hand isn't it.

To buy a range by mail is almost certain to end in disappointment and loss of money. It may be "exactly as represented" yet not be what you thought it was nor what you wanted.

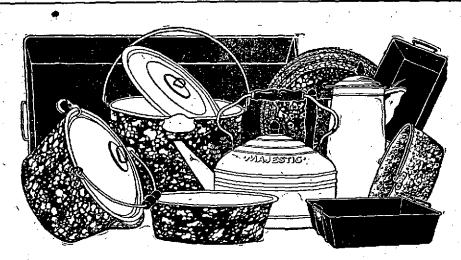

Here you can see every part of the Majestic-you can know what you are getting before you buy. Decide now that you will discontinue using that old, worn-out range. You will save money in fuel, repairs and cooking. Buy a Majestic-the range with 25 years' reputation. The demonstrator will answer any questions relating to stoves.
